

Research grants: Dr. Garry Robins

Research Grants

- 2012 – 2013: Chief Investigator, Australian Urban Research Infrastructure Network Project, *Characterising networks in geographical and social 'space' – integrating tools for network analysis*. (with Jodie McVernon, Jame McCaw, David Rolls, Nic Geard).
- 2012: Chief Investigator, University of Melbourne ARC Research Grant Support Scheme, Co-evolutionary dynamics of culture and social structure (with Yoshi Kashima, Michael Kirley).
- 2011-2014: Chief Investigator, Climate Change Adaptation Research Grants Program, National Climate Change Adaptation Research Facility (NCCARF), *Social network analysis: bridging degrees of separation to enhance climate change adaptation*. (with Susan Kinnear, D. Swain., K. Patison, E. Malone, & V. Ross).
- 2010 – 2012: Chief investigator, Australian Research Council Linkage Project, *Assessing the Australian Football League's racial and religious vilification laws to promote community harmony, multiculturalism and reconciliation* (with S. Gorman, D. Lusher, K. Reeves & L. Frost.)
- 2010 – 2012: Chief investigator, Australian Research Council Linkage Project, *Intergenerational transmission of dietary behaviour* (with C., Wilson, P. Ward, J. Coveney, C. Miller, J. Karnon, L. Koehly)
- 2009 – 2012: Chief investigator, Leverhulme Trust Academic Collaboration – International Networks, *Multilevel network modelling group*. (with M. Tranmer, N. Contractor, E. Lazega, A. Lomi, P. Pattison, T. Snijders, J. Koskinen, M. Elliott, S. Wasserman & R. Wittek.)
- 2009 – 2010: Chief investigator, CSIRO Climate Adaptation Flagship Collaboration Fund, *Detailed Design for a Study of the Major Social Processes that Drive Behavioural Adaptation* (with P. Pattison, D. Lusher, L. Bates).
- 2009 – 2012: Chief investigator, Australian Research Council Discovery Grant, *The structure and dynamics of social contact for human disease transmission models* (with P. Pattison, E. McBryde, M. Hellard)
- 2008: Chief investigator, University of Melbourne Research Grants Scheme, *Validation of contact information in studies of respiratory virus transmission*. (with J. McVernon, J. McCaw, T. Nolan, P. Pattison, S. Beckett.)
- 2007-2009: Australian Biosecurity CRC for Emerging Infectious Diseases Project, *Simulation modelling of urban pandemic influenza in Australia*, (with G. Garner, S. Beckett, P. Pattison, R. Watkins, M. McKinnon).
- 2007-2009: Australian Research Council International Linkage Grant, *Modeling cross-level interactions in complex networked social systems* (with P. Pattison, T. Snijders, A. Lomi, E. Lazega, J. Padgett).
- 2006-2010: Chief Investigator, Australian Research Council Discovery Grant, *Statistical models for social networks, network-based social processes and complex social systems* (with P. Pattison, T.A.B. Snijders).
2005. Chief Investigator, University of Melbourne/CSIRO Collaborative Research Support Scheme, *The management of critical water resources: inter-organisational networks and*

- organizational practices in the management of an urban waterway.* (with P.Pattison, P. Walker, G. Syme).
2005. Chief Investigator, Australian Football League Research grant. *Masculine behaviour and social networks in team structures.* (with D. Lusher, P. Kremer).
- 2004-2009: Network participant, *ARC Research Network on Socially Integrated Spatial Systems (ARCRNSISS).* (Stimson et al).
- 2004: Chief Investigator, Australian Research Council research networks seed funding, *Complex networked social systems.* (with P.Pattison et al).
- 2004: Chief Investigator, University of Melbourne/CSIRO Collaborative Research Support Scheme, *Spatially embedded social networks.* (with P.Pattison, P. Walker, H. Wong).
- 2003-2005. Chief Investigator, Australian Research Council Discovery Grant. *Modelling dynamic interactive social processes.* (with P. Pattison, T. Snijders).
- 2003-2004: Chief Investigator, Psychology Department Research Support Scheme (with J. Boldero). *Testing the predictions of relational discrepancy theory.*
2003. Chief Investigator, Beyondblue Centre for Excellence in Depression and Related Disorders research grant, *Depression in farmers and farming families* (with F. Judd, et al.).
- 2002-2004. Chief Investigator. Australian Research Council Discovery Grant. *The formation and maintenance of stereotypes through communication.* (with Y. Kashima, E. Kashima, & M. Tindale).
- 2000-2002 Chief Investigator, Australian Research Council Large Grant. *Statistical models for interactive social processes.* (with P. Pattison, S. Wasserman).
2001. Chief Investigator, Beyondblue Research Grant. *Rural Health Promotion Project: measuring anxiety and depressive symptoms in rural Australia* (with F.Judd, et al).
2001. Chief Investigator, Australian Research Council International Researcher Exchange Program grant. *Dynamic models for interactive processes in social settings* (with P.Pattison).
2001. Chief Investigator, Melbourne Research Development Grants Scheme. *The settings of social processes.*
2000. Chief Investigator, University of Melbourne Psychology Department Research Support Scheme Grant. *Social and socio-temporal neighbourhoods within a university college.*
- 1998-99. Associate investigator, Australian Research Council Large Grant. *Modelling of Group Processes* (Pattison, 1998-99, University of Melbourne.)

Research consultancies and contracts

- 2011-12: Research contract with Australian Defence Science and Technology Organisation (DSTO). *Social network models.*
- 2010-12: Research contract with Australian Defence Science and Technology Organisation (DSTO). *Advanced social network analysis techniques.* (with P.Pattison).
- 2005-2010. Research contract with Australian Defence Science and Technology Organisation (DSTO). *Social and organisational networks and their relevance to organisational design and performance* (with P.Pattison).
- 2007-2009: Consultancy with CSIRO, Putti project (with P. Pattison, D. Lusher).
- 2006-2008: Research contract with Australian Defence Science and Technology Organisation (DSTO). *Advanced social network analysis techniques.* (with P.Pattison).

2005. *Theories and methods for understanding human social networks*. DSTO workshop, University of Adelaide, 2-6 May 2005 (with P.Pattison).
- 2002-2003 Research contract with Australian Defence Science and Technology Organisation (DSTO). *Organisational network analysis project* (with P.Pattison).
- 2002-2003: Consultant, Research Council of the French Ministry of the Education Grant. (Emmanuel Lazega and Lise Mounier.) *Cognition, social networks, and organizational change*.
- 2001-2006. Consultant, US NIH research grant. (Morris, M., et al.) *Modeling HIV and STDs in drug-user and sexual networks*.
2000. Statistical consultant, Barwon Health.
1999. Associate investigator, US NSF grant. *Dynamics from Social Settings: Representations of Interdependent Social Forms* (White, Mische & Gibson, 1999, Lazarsfeld Centre for Social Sciences, Columbia University).
1999. Research contract with Australian Defence Science and Technology Organisation (DSTO). *High volume multirelational C3I Instrumentation Data* (with P.Pattison).
